# info

Hello, I'm Anja and these  
are some of the things I've  
done.

# mauha bag

As part of a start-up weekend, our team decided to create the so-called mauha bag, to use for surfing. A couple of us also created the designs and photographs meant to be used for our social media and on the bag itself. We were also picked as one of the top 3 teams of the weekend.

# sloga cycling club poster

A poster for a local cycling club, presenting new jerseys and urging people to join. I would have preferred to use a photo for it, but needed it done fairly quickly and they didn't have the jerseys yet.

# virino typeface

The typeface was created to commemorate the 120th anniversary of the first female newspaper Slovenka in Slovenia.

The typeface is based  
on the one used in  
the first issue.

# VIRINO

2. februarja 1897

Slovensko ženstvo! Na Tebi in ne na meni, urednici, je vspeh našega lista; podpiraj ga moralno in materialno, čitaj, širi in priporočaj ga! Delajmo na to, da naše ženstvo lahko poreče: »Malo nas je, a kar nas je - veljamo!«

# sana typeface

This is the second typeface we've made. We had a free path to do what we wanted, so we create something different to the first typeface, only limited by a couple properties picked by typecooker.com

Sana (fin. beseda)

besede, besede, besede, same besede, povsod same besede in črke in znaki.

# tozd bar website

Our favourite local bar and cafe in Ljubljana didn't have a website so my friends and I decided to design one. The owner wanted a very basic one with just the main information to create a presence online, while everything else is done face to face.

We are a bar, basically. The kind that smells of coffee and freshly cut flowers. Where cleverly designed things meet the love-worn details, like our signature orange mugs. Because we care, our approach is very very local. Everything we offer, comes from our friends. Or their friends. We have faith in fun talks and simple pleasures. This city and its visitors deserve something good, something

# bunte panther logo

A DJ called Bunte Panther had a logo idea and based on his initial design, I created my own version of it.

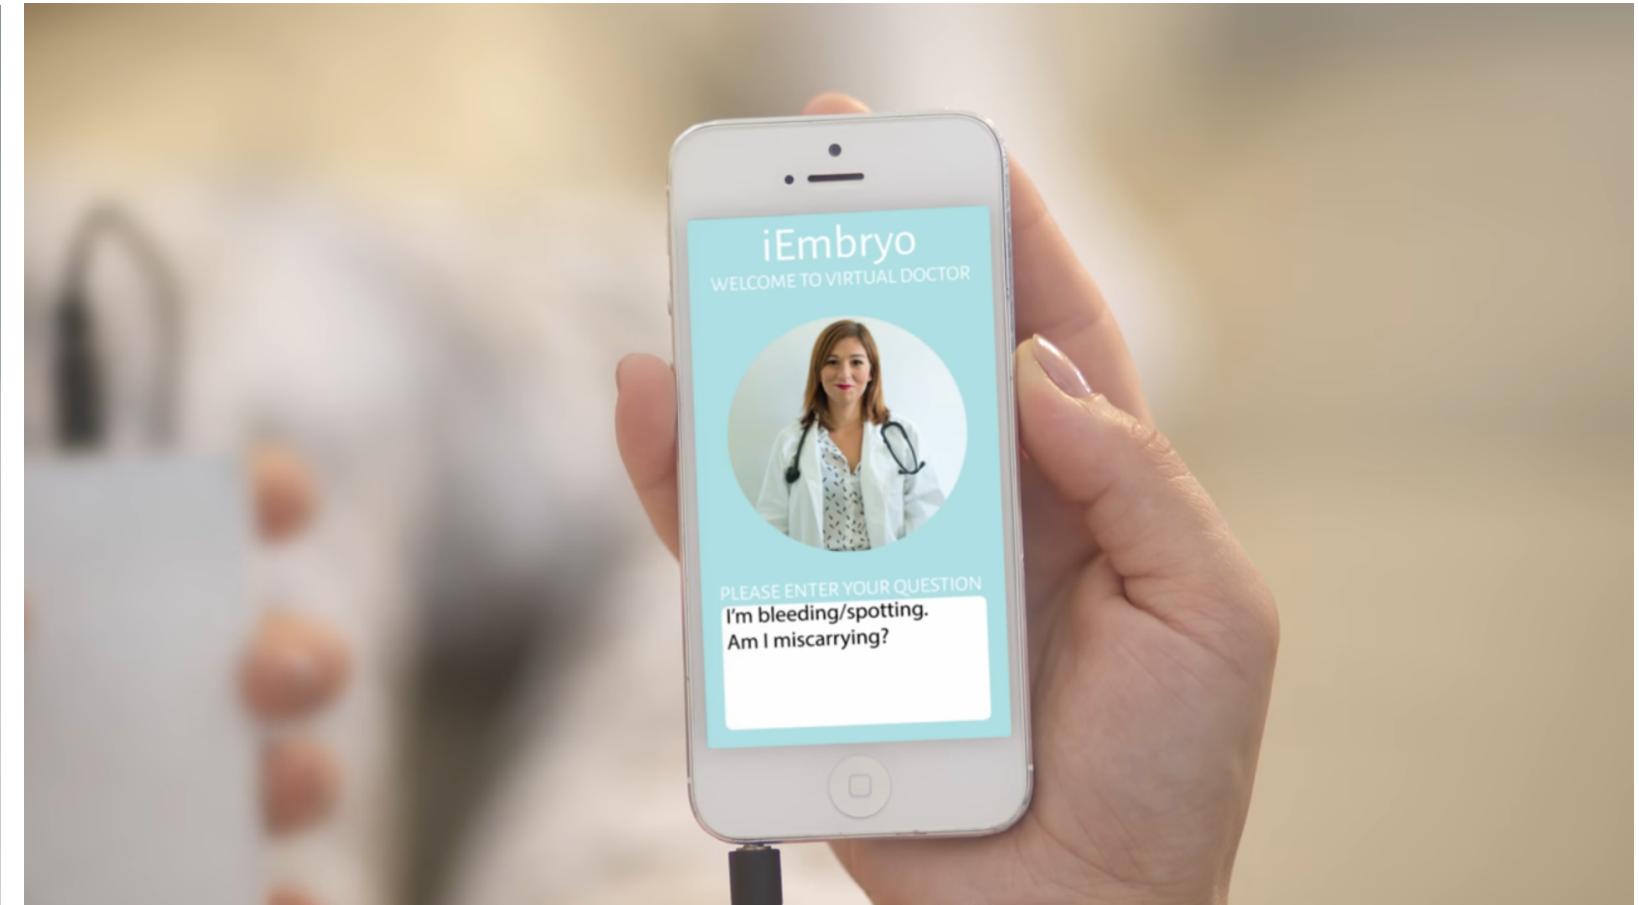

# packaging redesign

This was a fun packaging redesign I did.  
I decided to redesign box in which we can buy a can of fish.  
The first photo is the existing packaging.

# indiegogo projects

We have worked on two different indiegogo projects.  
The whole team worked together on shooting and  
visualisation of the whole video.

Click on the images to check out the videos.

# stop-motion animation

These are the two animation videos we made during the summer animation course in Bournemouth.
